

Hydro-Gardens Wet Wall Pump and Plumbing Kits

All **Hydro-Gardens** pump and plumbing kits include the wet wall pump, Y-strainer, 3/4" float valve assembly, gate valve and the PVC fittings needed to get from the pump to the wet wall inlet. (See drawing) Sump tanks need to be sized to provide a minimum of 3/4 gallon of water per square foot of pad area. The pump needs to provide between 1/2 and 1/3 gallon of water per minute per lineal foot of pad length. PVC pipe used to complete the system needs to be purchased locally.

Item Number	Max. Pad Length	Pump Incl.	Min. Sump Size	Price	Ship Wt.
6C320	50'	5W339	75 gal.	\$ 240.00	30#
6C380	80'	5W341	300 gal.	432.00	32#
6C300	100'	5W350	375 gal.	475.00	53#

THE WET WALL TANK MAY BE LOCATED INSIDE OR OUTSIDE THE GREENHOUSE. IF FREEZING WILL OCCUR, IT IS RECOMMENDED THAT THE TANK BE INSIDE THE GREENHOUSE.
