*GENERAL DESCRIPTION:

AQUA CEL+* MEDIA is a HiLoft bat of SYNTHETIC FIBERS, firmly bonded together and coated with a unique super absorbant cellular foam that yields a finished product that is durable, efficient, and economical. It is specifically designed for ready installation into any type of Evaporative Cooling System where an evaporative pad or cell is used. The media is available precut to size **without a durable, rigid PVC coated grid frame.**

*PRODUCT SPECIFICATION:

THICKNESS: 2+'' nominal (2 layers of 1'').
FRAME: Not Included.
STANDARD WIDTH: 2'
STANDARD HEIGHTS: 3', 4', 5', and 6'
PACKAGING: Heavy duty corrugated carton, standard pack is 5/ctn.
SHIPPING WEIGHT: Approximately 5 lbs./cu. ft. (6 Sq. Ft. pad face area / cu. ft.)

*PRODUCT CHARACTERISTICS:

AQUA CEL+* provides a highly stable hygroscopic cell structure resistant to acid or basic environments. It is non-biodegradable and has bacteriostatic qualities that discourage slime and algae growth. It will not cause odors. It is dimensionally stable in use. AQUA CEL+* is classified Class II by Underwriters Laboratories.
